

RECOMMENDATION INSTRUCTIONS

A recommender's form will be used in place of a traditional letter of recommendation in the hopes that it will be more accessible and manageable for both our applicants and their recommender(s).

One completed recommender's form is required for an application to be considered complete. The recommender's form should be completed by someone who can speak to the applicant's academic and professional capabilities, and/or the applicant's overall character and interests.

Requirements:

- Examples of acceptable recommenders include an academic instructor/professor, a teaching assistant, an employer/supervisor, and a mentor.
- Recommender's forms must be completed and submitted directly by the recommender before the application deadline (April 1, 2024).

The Recommender's Form can be accessed and submitted here:
